

Maine Fire Chiefs' Workshop

In conjunction with Maine Fire Service Institute, Maine Fire Chiefs' Association offers a Fire Chiefs' Workshop to assist leaders in developing the many skills and obtaining the diverse knowledge necessary to move their organizations forward. It provides an opportunity to network with peers while discussing and reviewing a few of the key areas.

The program is designed for a two day field delivery. There is no one size fits all answer so the workshop usually is accompanied by lively discussion while being presented by Fire Chiefs from across the State. The workshop topics are:

Legal Aspects
Professionalism & Politics
Leadership
Financial Management and Planning
Coaching, Counseling & Correcting
Training Safety and Risk Management
Incident Management
Community & Media Relations

We would encourage you to bring a workshop to your area, we would encourage you to participate in a workshop. We are stronger, we are safer we are better; when we move forward together. You can request a workshop by going to the MFSI website: <https://mfsi.me.edu/> and clicking on the request a course tab. If you would like a little more information just reach out to:
